# Insight

## **Congratulations to Wireline Team!**

Congratulations to the WL team on being awarded the RESHADAT project.

RESHADAT field is located some 108 km south of La-van Island in the Iranian waters of the Persian Gulf.

WSI as a well-known logging Contractor with good background and excellent performance in logging (TLC, CTU, and Wireline) services has been awarded the contract for performing USIT/CBL/VDL operation in the candidate wells.

Best wishes in your future endeavors. We are confident that you will continue performing greatly.

# What's going on in WSI!

## ➤ WSI Segments Official ISO 9001:2015 Audit

WSI anticipates to be officially audited by QS in about a month regarding the performance of WSI segments and compliancy to ISO standards. S&M team has been directly working with segment managers to ensure that the main clauses of standard are being considered within each segment. High-risk issues, that could potentially lead to a major non-conformity, such as equipment's calibration license updates, risk management, training etc., have been tackled in preparation for the upcoming stage-2 audit. Furthermore, 2022 Technical Training Plan, is being developed as it's been identified as a non-conformity during stage-1 audit. In addition, non-conformities regarding HSE and Procurement departments, that had been identified during stage-1 audit, have been mitigated. Non-conformities include Supplier Evaluation, Outsource, Training, Lessons Learned and Knowledge Management, Inspection/Drill Planning and Execution, and Annual Employee Medical Checkup processes.

WSI is prepared and confident to successfully pass the official QS audit to obtain ISO 9001:2015 certification. As reflected in the previous version of Newsletter, PIA is few steps away to obtain "Contractor Safety" certification. PIA is currently providing additional documentation and information to fulfill the remaining requirements requested by the government. It is noteworthy that "Contractor Safety" certification is a mandatory requirement to participate in tenders, and it directly contributes to PIA revenue gain and reputation, therefore it is one of the highest PIA business priorities.

## New Technology!

### ➤ Autonomous Directional Drilling

Autonomous Directional Drilling isn't a tool it's really a key to a gateway created by the people who write the code that drives the hardware that drills the holes autonomously. It connects thousands of engineers around the world by streaming live, real-time data through a robust and secure network linked by satellites orbiting the planet. Autonomous directional drilling unites all the technology, backed by all the engineering and domain expertise that Schlumberger has amassed for a century. And that is what enables the tool that drills the hole. Autonomous directional drilling could be the next frontier in the digital transformation of the oil and gas industry, according to Schlumberger. On 16 August, the company introduced its vision for autonomous directional drilling, which includes services that can steer through any section of the wellbore and improve drilling trajectory accuracy.

## ➤ Happy Birthday!

We would like to extend our congratulations and birthday wishes to the following colleagues for having birthdays in February & March. May this year be so much better than the last for you in every walk of life.

- Ali Kayed Abbasi (T)
- Adel Eisa Asl (A)
- Danial Baba Pir (A)
- Daryoush Mehdi Nejad (T)
- Rasoul Dadkhah (K)
- Faranak Asadi (T)
- Alireza Mohammadpour (K)
- Adel Daribasl (A)
- Moosa Delshadi Gabrani (K)
- Babak Komayezi (K)
- Abbas Taheri (K)
- Morteza Papir (K)
- Mostafa Maleki (K)
- Abdolsamad Gashtali (A)
- Pouria Sahmiri (A)
- Jalil Samiey (K)
- Mohammad Taheri (K)
- Parvaneh Hosseinpour (A)
- Shahrokh Soltani Solgani (T)
- Omid Tiori (A)
- Yaghoub Raeesi Mirshekar (K)
- Karim Soltani Pour (K)
- Abbas Mirdadi Pour (K)
- Ali Jenadele (K)
- Rostam Fazli Havadarag (T)
- Hojatollah Jalili (T)
- Mojahed Hamid (A)
- Taher Zergani (A)
- Ramin Rezaei (A)
- Farzad Sadeghpour (A)
- Mostafa Mortezapourkhedri (A)
- Omid Taheri Mirgaeed (A)
- Mahsa Ebrahim Bakhtiari (T)
- Alireza Karimipour (A)
- Saleh Sorkheh (A)
- Jalil Abbas Nejad (A)
- Saeed Teimori (T)
- Mahsa Ebrahim Bakhtiari (T)
- Alireza Karimipour (A)
- Saleh Sorkheh (A)
- Saeed Teimouri (T)
- Mokhtar Ekhlesi (K)
- Behshad Ajdari (T)
- Adnan Vaziri (K)

## ➤ Congratulations for New Born Babies!

Dear Hadi Salim (K), Congratulations on the birth of your Daughter, Artemis.

Dear Ghazaleh Bahrami (K), Congratulations on your Son's birth, Liam.

## ➤ New Colleagues Welcome!

Welcome to the WSI! We are thrilled to have you on our team. You're going to be a valuable asset to our company and we can't wait to see all that you accomplish.

- Behzad Esfandiar Bakhtiari (K)
- Ebrahim Seifi (K)
- Arash Bagheri Goleh (K)
- Kamyab Nayeri (K)
- Amin Amoori (K)
- Mohammad Taheri Esmarood (K)
- Shirin Ebrahimi (T)
- Kimia Vahdi (T)
- Mohammadreza Shirdel (T)
- Saman Mahmoudi (T)
- Mohammadreza Ashjari (T)
- Meysam Babashah (T)

Richard Berman

## ➤ Congratulations to Our Newly Couple!

Dear Faranak Asadi (T), May the love and happiness that you feel now never leave you and keep enlightening your life path through the years.

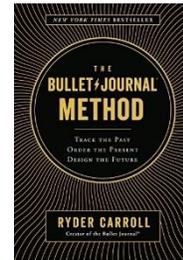

## The Bullet Journal Method

Authors: **RYDER CARROLL**

New York Times bestseller!

There's a reason this system for time management, goal setting, and intentional living has been adopted by millions around the globe: it works. Not only will you get more done, but you'll get the right things done. All you need is a pen, paper, and five spare minutes a day.

In the Bullet Journal Method, Ryder Carroll, the system's founder, provides an essential guide to avoiding all-too-common beginner mistakes and building a core discipline from which you can personalize your practice. You'll not only learn to organize your tasks, but to focus your time and energy in pursuit of what's truly meaningful to you by following three simple steps:

**Track the past.** Create a clear and comprehensive record of your thoughts.

**Order the present.** Find daily calm and clarity by tackling your to-do list in a more mindful, systematic, and productive way.

**Design the future.** Transform your vague curiosities into meaningful goals, and then break those goals into manageable action steps that lead to big change.

# Live HSE!

## ➤ Drive safe in this winter

Driving in winter weather - snow, ice, wet and cold creates a great challenge for vehicles and drivers. Keeping your vehicle in good technical repair reduces your overall chances for any mishap or disaster while driving - particularly in winter weather.

## ➤ Prepare your car for winter conditions:

To prepare your vehicle for winter driving give it a complete checkup. Look for the following:

### • Electrical system

Battery - recharge or replace if the battery is weak. Ignition - check for damaged ignition wires and cracks in the distributor cap. Lights-check all lights (headlights, side lights, emergency flashers, directional lights, taillights, brake lights and parking lights) for proper functioning.

### • Brakes

Check brakes and adjust to ensure equal braking.

### • Tires

The traction between tires and roadway determines how well a vehicle rides, turns and stops, and is crucial for safe driving in winter.

Use four snow tires that are of the same type, size, speed rating, and load index for better handling, control and stability.

Use chains or studded tires on all four wheels when you expect severe snow and icy roads. Check with your local Department or Ministry of Transportation office to see if the use of tire chains or studded tires is legal in the region through which you are planning to drive.

Check tire pressure and if necessary restore it to levels recommended by the vehicle manufacturer.

Check the wear of the tires.

Check tire balance and correct if necessary.

Check wheel alignment and correct if necessary.

### • Exhaust system

Check the exhaust system for leaks.

Keep the window in your vehicle slightly open when you're stuck in snow, and run the engine and heater to keep warm.

Keep the exhaust pipe clear of snow.

### • Heating/Cooling system

Check the radiator and hoses for leaks.

Ensure that your vehicle always has a sufficient amount of antifreeze rated for the coldest weather.

Check the defrosters (front and back) to make sure they are working efficiently

### • Windshield wipers

Ensure that windshield wipers function efficiently. Replace them if they are old or worn. Fill the washer container with an antifreeze fluid and top it up frequently.

### • Fuel

Fill up the fuel tank before you leave on your trip.

Do not let the fuel level get too low!

### • Prepare yourself for winter driving

Plan your driving in advance.

Avoid driving when fatigued.

Contact your provincial "Road Reports"

Where ever possible, postpone the trip when the weather is bad.

Check weather conditions for your travel route (and time) before you begin driving.

Plan your arrival time at a destination.

Inform someone of your route and planned arrival time.

Choose warm and comfortable clothing.

Warm up your vehicle BEFORE driving off. NEVER warm up your vehicle in a closed garage.

Remove snow and ice from your vehicle.

Bring a cell phone if you have one but do not leave it in the car as the battery will freeze.

*"When you're out of quality, you're out of business".*

Phil Crosby
